## 2. Approach and short listing of Partners:

With the objective of increasing insurance penetration, reducing cost of insurance and offering increased choice to customers, the extant guidelines of IRDAI permit corporate agents to implement an Open Architecture model by partnering with a maximum of three insurance partners in each insurance segment i.e. Life, Non-Life & Health. Considering the potential benefits to the Bank customers, overall business strategy and business opportunity, it is recommended that the Bank should adopt an **Open Architecture** model for distributing insurance products (Life, Non-Life & Health) by tying-up with multiple insurance companies, which is in line with the regulatory requirement.

The Bank therefore, proposes to partner with three Insurance companies in each of the segments. A company/group should be engaged on only one category.
